

NOT TO PLAY CARDS

Mayor Stuart and the Police Commissioners

OBJECT TO THE CARD PLAYING

By the Patrolmen in Headquarters—The Mayor Recommends That a Library Be Established.

Mayor Stuart was present at the meeting of the board of police and fire commissioners yesterday. All the members were present except President Lettitt. The mayor said he wished to call the attention of the board to the fact that at present there is no means of separating young boys and girls from the older promoters in the cell room of headquarters. He considered it of the utmost importance that the men should be separated from the women and the women from the children. He feared that boys confined in close proximity and within hearing of women who were intoxicated sometimes heard language which gave them impressions they would otherwise not receive. The mayor also called attention to the card playing indulged in by the patrolmen. He did not consider it was very elevating and he thought if a library were started, and the men were furnished with good books to read, it would keep the men from the cards. There were, no doubt, many persons in the city who would furnish some books and the board might appropriate \$100, which would make quite a start toward a library. It would be valuable to have Tiffany's Criminal Law on the shelves. Mr. Bender said he would be in favor of prohibiting card playing in the building. The men spent all their spare time in card playing. He did not think it looked very well.

New Police Boats.
Superintendent of Fire Alarms Bettlinghouse reported the progress of work in his department, and Superintendent Eastman of the police force reported a full rearrangement of the police boats of the city. Many of the boats remain unchanged. There are sixty-four boats under the new arrangement of things. Mr. Eastman said Clerk Stevens of the police court had assumed control of the police court claiming he had a legal right to do so. He had notified Court Officer Johnson not to open and close the room again.

The report of fines for the week shows ten lines to have occurred. James Fahy handed in his resignation from the police force. Accepted. Officer Brown asked for leave of absence for one week. Referred to the committee on men and discipline.

Residents of Paris avenue, Union street, College avenue, Logan and James street asked that a police boat be established to quiet the noisy boats that infest the neighborhood. Placed on file.

Marshal Lemoin recommended the following promotions: Solomon J. Tanner from driver of a steamboat to engineer of same. Joseph Brown from pipeman No. 3 steamboat company to Lieutenant of same. John Rennehan from post to full pay pipeman of No. 3. William Spencer from pipeman to Lieutenant of No. 7. T. H. Bellare from pipeman to Lieutenant of No. 3 steamboat company.

Bills from the police department amounting to \$256.69, and from the fire department amounting to \$36.29, were allowed.

Mr. Lemoin recommended the following men for confirmation: Michael Verlin, W. F. Appel and R. W. Sweetman. Referred to the committee on men and discipline.

After Clerk Stevens.

McCord & Bradford asked to have their watchmen appointed special officers. The request was granted.

The committee on finance, to whom was referred the application of S. W. Graves, to be re-instated with the pay of three year patrolmen, recommended that the request be denied.

Commissioner Bender said there was no use of listening to W. S. Stevens, clerk of the court. Mr. Stevens seemed anxious to show his authority by assuming control of the court room. He read from Howell's legal authority of the clerk and it was decided to create a new committee who shall have charge of the rooms. Messrs. Loetigert and Bender were appointed on the committee.

The committee on men and discipline reported that it had investigated the case of Officer Roscoe, reported for refusing to aid in the arrest of a bootblack, and recommended that Mr. Roscoe's pay be reduced to per day for fifteen days and that he be reprimanded. Mr. Roscoe was called upon when off duty to aid Tom McCarty capture a bootblack and asked Mr. McCarty if he would not get another patrolman near by to aid him. For this he was reported with the above result.

The board went into executive session on matters of discipline and for the consideration of bids on a ladder truck for the fire department.

Verdict for DeGolia Brothers.

DeGolia Brothers, real estate agents, were given a verdict for \$25 against James H. June in the circuit court yesterday. June listed his farm with the plaintiffs for sale, but having a chance to sell it himself did so without first consulting the agents, and did not turn over any commission to them. The trial of the case was before a jury and continued three days, having been sharply contested by both parties. The suit was brought to recover the amount of commission to which the plaintiffs would have been entitled had they sold the farm.

Chris Has No License.

Warrant was issued yesterday from police court for the arrest of C. W. Wernette, proprietor of the Ionia house, and George Goodman, proprietor of a hotel on Spring street, on a charge of running a hotel without paying a license.

The Herald desires to publish next Sunday the greatest variety and number of classified advertisements that has ever appeared in any Grand Rapids paper. To effect this purpose the publishers offer to publish any advertisements not exceeding five lines in length, one time, Sunday for five cents. The conditions are that cash must accompany the copy, and the copy must be delivered at The Herald office Friday or before noon Saturday. After 12 o'clock Saturday regular rates will be charged for all ads. offered. Not more than six advertisements will be accepted from any one advertiser, as the desire is to avoid sameness and publish a column that shall be as interesting as possible.

BRING ON YOUR "DESIRELETS."

Commences Today.

The Western Beef & Provision Company, No. 71 Canal street, inaugurates today, a general reduction sale of their goods. While a reduction sale of goods, such as are handled by this firm, is a novelty, the departure taken by the company will be appreciated by every frugal wife and housekeeper in the city, as it enables a purchase to be made of strictly meritorious edibles at greatly reduced prices. The Western Beef & Provision Company propose giving a reduction of from 15 to 20 per cent on all lines of fresh, cured and smoked meats and lard. When it is considered that this firm are direct shippers from the great corn belt of the west, it can be easily understood that meats at such a reduction as 15 to 20 per cent makes a value no wife can afford to fail accepting of.

Since DR. S. CLAY TODD has been

acknowledged by all to be so successful in the treatment of Catarrh, Nervous Debility, Impotency, Rheumatism, and all nervous and chronic diseases, dozens of would-be specialists have tried to locate in Grand Rapids.

Some of them had, or thought they had, means of their own that the public would grasp at as a means of relief, others have been agents of some other "cure," but all have been judged for what they were worth, which was nothing but a "catch-penny dodge," to get the people's money, when they were really looking for DR. S. CLAY TODD.

They thought from the amount of advertising being done by DR. S. CLAY TODD, that there was a great amount of business in Grand Rapids, but on coming here they found themselves mistaken, as the field was all occupied, as DR. S. CLAY TODD was doing the work, and the people were not looking for outside help, consequently, they squirmed around and resorted to all sorts of subterfuges and finally left Grand Rapids in disgust, most of them being in debt to the newspapers and others who had tried to help them in advancing their schemes.

THE DUNLOP CURE

For Drunkenness and the Happy Home Club Movement.

For forty days and forty nights the rain poured down from the open windows of heaven until the floods covered the earth and the sun after the storm smiled down upon a watery waste where a world lay entombed. Solitary and alone, without mail or sail, floated the ark with its freight. The olive branch borne on a weary but glad wing proclaimed the subsiding of the deluge. The sunbeams kissed the vapor as it rolled up from the retreating waters and the bow of promise lifted arch in the clouds. Noah went out and planted a vineyard; he partook of its fruits and lay in his tent in the slumbers of drunkenness. The scourge of a world passed away had begun its ravages anew. From that vineyard the noonday scourge has spread on in its mission of ruin. New woes and keener sorrows have been sent out to stalk through the world, followed by red handed crime and ghastly death. The white sails of commerce have borne it across oceans, and the civilized and savage climes the curse of intemperance has smitten the race. Humanitarians from time to time have risen up and rallied to their standards the good and the true to combat the terrible evil, and yet in spite of all effort the great black sea of death has ever risen higher and higher, threatening a second overthrow of the race. To the nineteenth century and to a comparatively obscure man the world is indebted for the successful means to combat the enemy and turn back the tide of the great black sea of death. Dr. S. Clay Todd, a native of Alpena, Mich., a reputable physician, some five years ago began in his private practice curing inebriates. His fame spread because it could not be suppressed, until the capitalists of Alpena took the matter in hand and formed a stock company and incorporated under the name of "The Happy Home Club of America." Last February they began an organized effort to give the cure to other communities, until today not less than fifteen clubs are organized in Michigan. The work has been done in neighboring states, and in the Dominion of Canada the Dunlop cure has a strong foothold and is being pushed through the Happy Home Club movement.

Grand Rapids is one of the favored communities and good work is being done and happy homes in our midst testify to the beneficent blessings of the Dunlop cure.
